# Welcome to Showers & Eyebaths

## Designed with you in mind

With over 50 years combined experience in the safety industry, we have the expertise to design and manufacture any shower, eyewash or safety drenching equipment you require.

We all take pride in ensuring you, our customer, receives 100% customer service and competitive prices from start to finish.

## Comprehensive range of emergency solutions

Our extensive and comprehensive range of free standing showers are all designed and manufactured in house. Most units are manufactured using stainless steel valves and linkages, which are suitable for use with mains water supply. Our corrosion resistant units are protected by a very heavy duty, highly visible outer jacket, which provides protection from harsh environments and accidental damage.

## No overheating or freezing

Because many of our showers are self draining they cannot overheat or freeze. It also eliminates the risk of Legionella Pneumophila forming, making them cost effective for use in any environment.

## Built to withstand any environment

We also have an extensive range of Tank Showers suitable for any environment which are manufactured in stainless steel and GRP (Glass Reinforced Plastic). The units conform to the 1999 water regulations for the supply of wholesome water and are fitted with twin ball float valves and a bylaw 30 kit to help prevent the formation of Legionella Pheumophila.

## Be seen and be safe!

All our models are designed to be highly visible and come with various rigid and/or adhesive safety signs. Testing levers are also fitted as standard.

## Setting the standard

All our emergency showers and eyebaths meet ANSI standards and come with a two year guarantee. We pride ourselves in being able to meet our customers' requirements and, as a result, enjoy long and successful relationships.

Additionally, if you require a specific product to satisfy your needs please do not hesitate to contact us. We are here to help as your safety demands our quality.

For BENELUX we are represented by ZilvoldHF Trading BV ([www.nooddouches.nl](http://www.nooddouches.nl))

# Fixed eyebaths

MODELS: GEB1 : GEB2 : E300 : S300 : E300P

## FEATURES

Manufactured from corrosion resistant GRP and Stainless Steel

Self draining

2 x di - user nozzles

Flow control regulator

Can be wall mounted

Can be fitted to any of our showers

## Models GEB1 and GEB2

Automatic turn on when lid is lifted

Micron Filter Removes impurities  
(mains fed units only)

## OPTIONAL EXTRAS

Alarms

Flexible Eyewash

Stainless Foot treadle

Stainless Pedestal

< GEB2

< E300P

< GEB1

MODELS: E65 : E42 : E5

## FEATURES

Powder Coated Bronze

Suitable for treating unconscious or disabled operatives

Easy cleaning

Trigger operation

Dust cover

Mounting bracket

Can be bench mounted as well as wall mounted

Model E42 comes with twin nozzles at an angle of 45 degrees

E65 >

< E42

E5 >

# Wall and ceiling mounted showers

MODELS: GWM1R : E150 : S150 : E100

## FEATURES

Manufactured with visible GRP outer case

ABS internal pipe work

Pull handle operation

Overhead Rose

No obstruction in confined areas

## OPTIONAL EXTRAS

Alarms

Flexible Eyewash

Lamps

Stainless wall or ceiling mounting plate

# Indoor range of showers

MODELS: E350 : S350 : S370 : E370

## FEATURES

Ideal for indoor installation or for areas where there is no risk of frost or overheating

Manufactured in Polyester-Coated Brass and Galvanized Steel

Also available in Stainless Steel

Pull handle operation

Overhead Rose

E370 >

## OPTIONAL EXTRAS

Alarms

Lamps

Walk on shower platform

Treadle for Eyebath

# Corrosion resistant showers

MODELS: GFS1F PH : GFS3F PH : GFS3F  
: GFS3F

## FEATURES

Ideal for any environment

Manufactured from Corrosion resistant GRP yellow outer case, ABS pipe work and Stainless Steel

Self draining

Can be Self Heated for hot conditions

Can be Trace Heated to protect from freezing conditions

Pull handle operation

**GFS1F PH** fitted with ABS Rose

**GFS3F PH** fitted with three stainless nozzles

## OPTIONAL EXTRAS

Eyebaths

Alarms

Lamp

Walk on platform

Treadle for eyebath

Scald Valve (depending on model)

Flexible hand held eyewash  
(depending on model)

# Multi nozzle safety shower

MODELS: GMNSS

## FEATURES

Ideal for total decontamination purposes

Manufactured from Stainless Steel

Self draining

9 spray nozzles

GRP platform shower operation

< GMNSS

## OPTIONAL EXTRAS

Eyebath

Alarms

Lamps

Treadle for Eyebaths

# Tropical combination shower

MODELS: SD370 : SD370S

## FEATURES

Ideal for hot climates as units drain down

Manufactured from either Galvanized Carbon Steel protected by Green Enamel or Stainless Steel

Complete with open eyebath

Hand lever operation

Overhead Rose

Twin nozzles with dust caps

< SD370

## OPTIONAL EXTRAS

Alarms  
Lamp  
Walk on shower platform  
Treadle for eyebath

# Pipe showers

MODELS: GSS3 : GSS1 PH : GSS3 PH

## FEATURES

Ideal for any environment

Manufactured in Stainless Steel

Self draining

1, 2 or 3 spray nozzles for maximum decontamination

Pull handle operation

< GSS3

## OPTIONAL EXTRAS

Eyebath  
Alarms  
Lamps  
Walk on shower platform  
Treadle for eyebaths  
Scald Valve

# Cubicle showers

MODELS: GES1 : GES8 : GES1P

## FEATURES

Ideal for external use

Manufactured from corrosion resistant GRP and Stainless Steel

Can be manufactured to individual requirements

Totally contained unit in yellow or green

Luminous operating platform

Wide cubicle available for increased internal capacity

Non slip floor

Panic bar

Incorporated drain sump

## Standard and Large Sizes available

### Standard models

GES1 fitted with overhead ABS Rose

GES8 fitted with 8 spray nozzles for total decontamination

### Large models

GES1P

GES8P with spray nozzles

## OPTIONAL EXTRAS

- Eyebath
- Alarms
- Lamps
- Strip curtain
- Internal wall heater
- Internal open eyebath
- Treadle for eyebath
- Strip curtain
- Sirens
- Internal wall heater
- Spring loaded doors

< GES1

GES8 >

GES1P >

Wide cubicle providing increased internal capacity

GES1 >

Showing optional spring loaded doors

# Tank showers – 350 litre capacity

MODELS: GFTS G316 : GFTS M

## FEATURES

Ideal for external use

Manufactured from corrosion resistant GRP and Stainless Steel

Green 350 litre pre-insulated sealed tank

Twin ball float valves for quick filling

Screened overflow & vent for minimum risk of Legionella

Panic bar

Luminous operating platform

Overhead ABS Rose

Model **GFTS M** includes additional cross bracing and is tested for horizontal load 0.61G, vertical load 0.44G

## OPTIONAL EXTRAS

- Heater pad & stat
- Eyebath
- Flexible Eyewash
- Various Alarms and Sirens
- Drain valve
- PVC Curtain
- Strip Curtain
- Side & Rear panels
- Lamps
- Temperature Gauge
- Drain Sump
- Auto Siphon Dump Valve
- Water Level Indicator
- Sun Canopy
- Water Chiller

< GFTS

< GFTS M

Important note: The framework, operating linkages and pipe work used in our Tank Showers are manufactured in corrosion resistant Stainless Steel. We do not use mild steel.

# Tank showers - 800 litre and 1500 litre capacity

MODELS: GFTS8 : GFTS12 : GFTS12 316 :  
GFTS12 M : GFTS15

## FEATURES

Ideal for external use

Manufactured from corrosion resistant GRP and  
Stainless Steel

Green pre-insulated sealed tank

Twin ball float valves for quick filling

Screened overflow & vent for minimum risk  
of Legionella

Panic bar

Luminous operating platform

Overhead ABS Rose

**GFTS8** includes an 800 litre header tank for a  
guaranteed 10 minutes drenching time

**GFTS12** includes a 1200 litre header tank for a  
guaranteed 15 minutes drenching time

**GFTS12 316** as the GFTS12, manufactured using  
a 316 Stainless Steel frame.

**GFTS12 M** as the GFTS12 316 with additional  
cross bracing and tested for horizontal load 0.61G,  
vertical load 0.44G

**GFTS15** includes a 1500 litre header tank for a  
guaranteed 20 minutes drenching time

## OPTIONAL EXTRAS

- Heater pad & stat
- Eyebath
- Flexible Eyewash
- Various Alarms and Sirens
- Drain valve
- PVC Curtain
- Strip Curtain
- Side & Rear panels
- Lamps
- Temperature Gauge
- Drain Sump
- Auto Siphon Dump Valve
- Water Level Indicator
- Sun Canopy
- Water Chiller

**Important note:** The framework, operating linkages and  
pipe work used in our Tank Showers are manufactured in  
corrosion resistant Stainless Steel.

We do not use mild steel or galvanized mild  
steel which can corrode and seriously weaken the shower.

## MODELS: GFTS12A

### FEATURES

Ideal for external use

Guaranteed delivery of 15 minutes of warmed water

Certified for temperatures ranging down to minus 40 degrees centigrade

Manufactured from corrosion resistant GRP and Stainless Steel

Green 1200 litre pre-insulated sealed tank

Twin ball float valves for quick filling

Screened overflow & vent for minimum risk of Legionella

3Kw immersion heater & stat

Insulated walk in cubicle

Built in drain with outlet

Panic bar

Non slip floor

Overhead ABS Rose

Internal cubicle wall heater

Internal lamp

Visual water level indicator

Spring loaded doors

Internal integral eyewash

**ATEX or GOST certified therefore suitable for installation into hazardous areas (Zone 1 & 2)**

### OPTIONAL EXTRAS

Various Alarms

Flexible hand held eyewash

Flashing Alarm & Sirens

External lamp

Temperature Gauge

**Important note:** The framework, operating linkages and pipe work used in our Tank Showers are manufactured in corrosion resistant Stainless Steel.

We do not use mild steel or galvanized mild steel which can corrode and seriously weaken the shower.

< GFTS12A

# Portable shower

MODELS: GPSS3

## FEATURES

Suitable for external use

Manufactured from corrosion resistant  
Stainless Steel

Corrosion resistant Aluminum case

Self Draining

Platform operation

Easy to erect

Lightweight to carry

5 metres of hose complete with connections

3 spray nozzles for maximum decontamination

< GPSS

# Self contained shower & eyewash

MODELS: GPS12

GPS12 >

## FEATURES

Ideal for use where there is no mains water supply

Can be taken to any area (hazardous or non  
hazardous)

Gives 15 minutes of tepid water drenching time

Manufactured in corrosion resistant Stainless Steel

Simple hand shower operation

Twin eyewash

Overhead spray nozzle

1200 litre water bowser

Pneumatic pump

Single immersion heater

Bracket for air cylinder (air cylinder not supplied)

Build in trailer for transportation

# Portable eye & face wash

MODELS: E250 : E250 Cabinet : GPW3

## FEATURES

Ideal for use in areas where there is no mains water supply

Trigger operation with dust cover

Stainless Cylinder(s)

1.5 meter steel hose

Pressure Gauge

Safety Valve

6 bar charging pressure

**E250** includes 18 litre Stainless Cylinder to provide 4 to 5 minutes of water flow (approx)

**GPW3** includes 2 Stainless Cylinders to provide 8 to 10 minutes of water flow (approx), waste collector and built in trolley

## OPTIONAL EXTRAS

Wall mounted cabinet for **E250**

E250

GPW3

# Self contained eyewash

MODELS: EW15

EW15 >

## FEATURES

Ideal as an emergency First-Aid water treatment where there is no plumbing capability such as:

Chemical & Pharmaceutical Plants

Fire & Emergency Teams

Vehicles carrying dangerous substances

Remote environments

Manufactured using chemical resistant high density polyethylene

Provides 15 minutes of water flow

Operated by simple pull down action

Small compact size with carry handle

Convenient for portability and storage

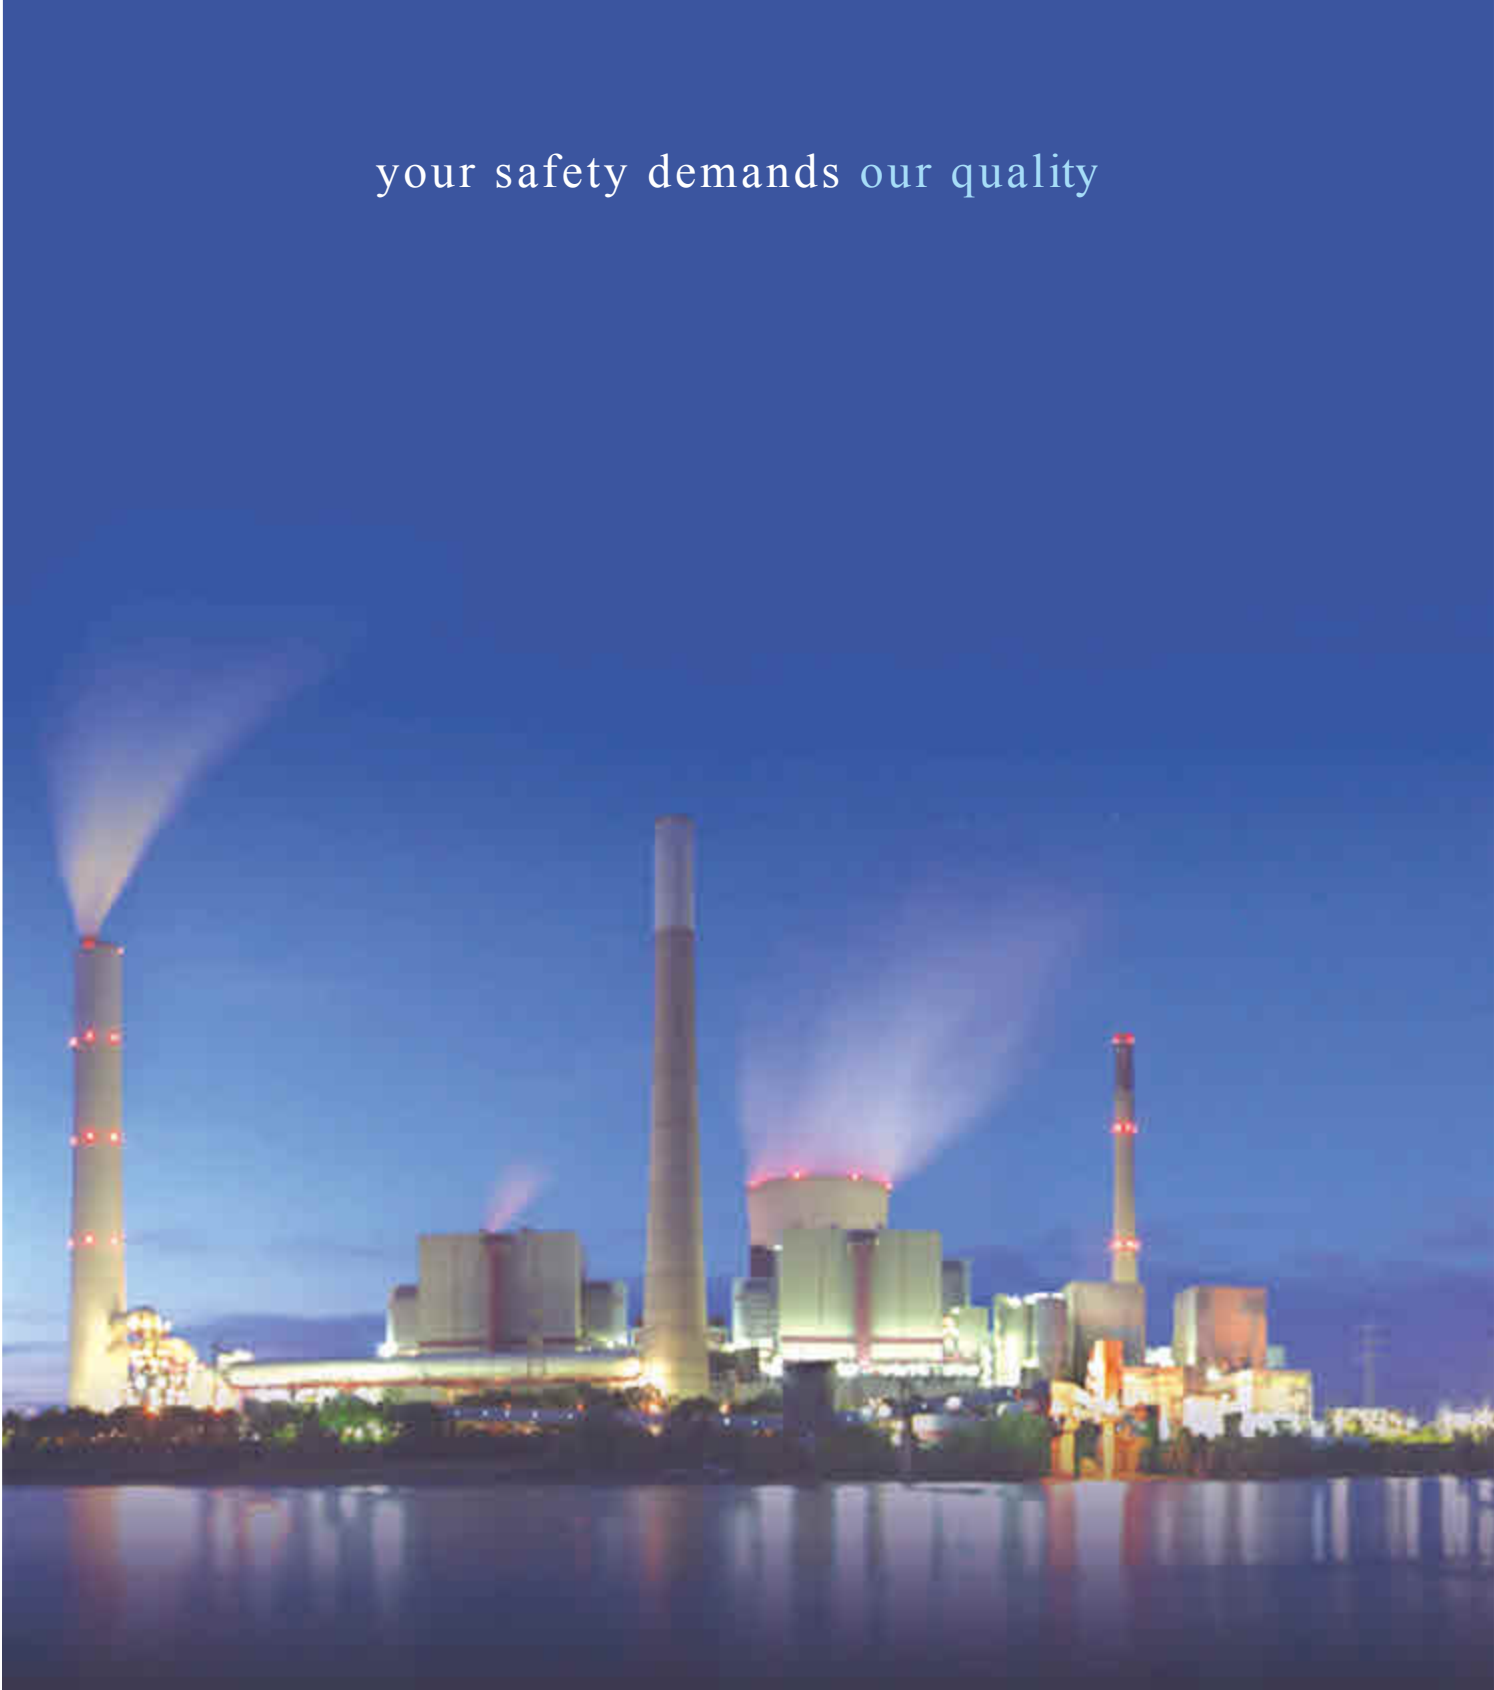

Large cap for easy filling, cleaning and inspection

Retractable tray to protect against airborne contaminants

Wall mounting bracket
